

Muh. Nur Iksan

Informatics Engineering Fresh Graduate

+62-821-9254-0227 | iksanpml131@gmail.com | Kendari, Sulawesi Tenggara | LinkedIn@muh-nur-iksan

Summary

I am a fresh graduate in Informatics Engineering with passion for full-stack web development and mobile application development. Through various projects, I have developed skills in backend development, frontend development, and Android app development. I am a technology-driven learner who continuously seeks new knowledge to enhance my expertise. In my free time, I enjoy experimenting with new frameworks and building application prototypes. My passion lies in software engineering, data processing, and cloud-based application development.

Work Experience **Classroom Assistant** at Digital Talent Scholarship

July 2024 – August 2024

- Coordinated class activities
- Assisted in organizing related sessions and projects
- Monitored participant progress and provided administrative support

Web Development Teacher at SMKN 1 Kendari

August 2023 – December 2023

- Taught fundamental and intermediate web development concepts
- Designed and delivered structured lesson plans
- Guided students through final projects

Web Developer Internship at Informatics Engineering Department

Universitas Halu Oleo

February 2023 – March 2023

- Designed and developed a responsive web application for managing and displaying course schedules
- Implemented features functionality for administrators to manage course schedules
- Optimized user experience

Training

Mobile Development Cohort at Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

February 2023 – July 2023

- Developed Android applications using Kotlin and Android Studio
- Collaborated in a cross-functional team with Machine Learning and Cloud Computing
- Enhanced problem-solving and software engineering skills

Java Programming Student at Kredensial Mikro Mahasiswa Indonesia

Agustus 2021 – September 2021

- Learned and applied core Java programming concepts
 - Integrated MySQL database for storing and managing transaction data
 - Developed a desktop-based payment application
-

Organization

Android Development Core Team Member at Google Developer Students Club Universitas Halu Oleo

August 2023 – July 2024

- Building and developing tech communities on university
 - Facilitating learning Android development for the community member
 - Encourage members to create innovative solutions to real-world problems using Google technology
-

Education

Bachelor of Informatics Engineering
Universitas Halu Oleo

Graduated July 2025
Grade: 3.83

Key skills

Frontend Development, Backend Development, Android Development, User Interface Design, Communication, Project Management, Time Management
